## \* Customized Shape upon request

JYL-Tech JYL-WT01 One-way RFID TYVEK Bracelet is a one-way wristband ID tag for access control to events, festivals, openairs, concerts and of course for hospital patients. The transponder is embedded in the TYVEK material on the backside of the bracelet. Important: wristbands void if tampered or removed.

## Description:

1. Features a pull-off tab with matching serial number.
2. Perfect for ticketing, redemption, raffles, child/parent match-up, and more!
3. Economical, comfortable, and tear-resistant
4. Strong adhesive closure and unique tamper cuts cause wristbands to shred if tampered with. One time use only
5. Vibrant, solid color for superb visibility and identification

## Chip available:

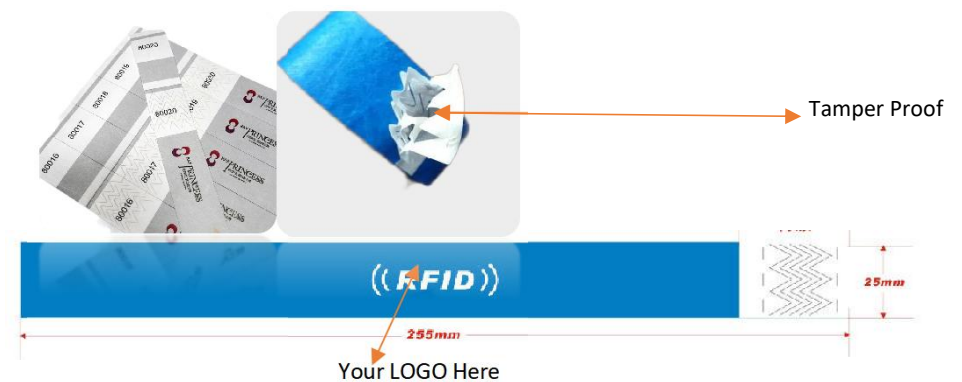

- HF
- UHF
